

Thank you to Villiers for appointing us as their new catering partner. We wanted to take a moment to introduce our business to you. We commit to placing your student at the heart of everything we do, providing both students and staff with a wonderful dining experience, every day.

We invite you to read more about our business at our website www.brookfoods.ie. We have been working with schools like Villiers for over 8 years now and have been in business in contract catering since 2007. We are excited to start working with Villiers students to build menus and support their nutritional needs. We are happy to cater to all allergy requirements – so please rest assured that if your student has any allergies at all, we will alter our menus to suit this.

We will take the time to get to know your student and support them with their growth and development while at school through the meals we provide them. Mealtimes will have a sense of occasion. Food is at the heart of everything we do and looking after your student's health and nutrition is key. We use the Nutritics application to share weekly menus, so students can see what meals they can expect weekly, as well as nutritional and allergen information. Please see the QR code that you can scan to view the menu or alternatively, follow this link:

<https://www.nutritics.com/menu/BrookVilliers/146414>

We will nurture and develop your student's interest in food, providing them with many opportunities to learn, be creative and social. We have a full-time nutritionist as well as a school development chef and brand ambassadors, Derval O'Rourke and David Gillick, who can also support the work we do at Villiers.

In addition to our food, health, and wellness, we are happy to work with students through student restaurant forums as well as surveys to ensure we continue to adapt menus to their needs. Our support team bring experience, professionalism, enthusiasm, energy, and a sense of fun to the services, which will enable us to win the hearts and minds of the students at Villiers.

We are so looking forward to commencing our restaurant at Villiers.

Kind regards,

The team at Brook Foods
